CRM Sales Analytics Dashboard

Process Flow: Lead Management to Dashboard Reporting

Start

|

Lead Generated

Leads are received from different sources such as website, referral, social media, email campaign, cold call, or other marketing channels.

|

Lead Captured in CRM Dataset

Lead details are recorded in the CRM dataset, including Lead ID, Lead Source, Region, Sales Representative, Created Date, Deal Value, and Lead Status.

|

Lead Assigned to Sales Representative

Each lead is assigned to a sales representative based on region, availability, or business rules.

|

Sales Representative Contacts Lead

The sales representative contacts the lead and updates the lead status based on the customer response.

|

Lead Status Updated

The lead moves through one of the following stages:

New Lead
Contacted
Interested
Follow Up
Proposal Sent

Negotiation
Converted
Lost
Not Interested

|

Decision Point: Is the Lead Closed?

If the lead is Converted, Lost, or Not Interested, the opportunity is marked as Closed.

If the lead is New Lead, Contacted, Interested, Follow Up, Proposal Sent, or Negotiation, the opportunity remains Open.

|

For Open Opportunities

Follow-up date is updated.

Follow-up status is marked as Upcoming, Due Today, or Overdue.

Open pipeline value is tracked.

The lead remains active for sales monitoring.

|

For Closed Opportunities

Closed date is updated.

Days to Close is calculated.

Follow-up status is marked as Closed.

If the lead is Lost or Not Interested, Lost Reason is recorded.

If the lead is Converted, revenue is counted.

|

CRM Data Validated

Data quality checks are performed for:

Duplicate Lead ID

Negative Days to Close

Missing Lost Reason for Lost leads

Closed Date earlier than Created Date

Incorrect Opportunity Status mapping

Incorrect Follow-up Status mapping

|

Dashboard Data Refreshed

The CRM dataset is refreshed in the dashboard tool.

|

Dashboard KPIs Updated

The dashboard updates KPIs such as:

Total Leads

Converted Leads

Conversion Rate

Total Revenue

Open Pipeline Value

Overdue Follow-ups

Lost Leads

Average Days to Close

|

Sales Manager Reviews Dashboard

Sales managers review sales performance, follow-up delays, lead source quality, sales representative performance, lost reasons, and revenue trends.

|

Business Action Taken

Managers take action on overdue follow-ups, low-performing sales reps, weak lead sources, and high lost lead reasons.

|

End
